

# Library Resource Management Systems, Inc.

Combo Book Labels consist of two barcode labels and one spine label this option has been created as a fixed label maker. There are no adjustments that can be made to shift labels left to right or up and down. Print these labels from a Laser Printer.

This label maker can be used to create barcode labels for records that only are tagged.

## Setup Instruction:

The screenshot shows the 'LRMS(Build 3.8.17) : DEMO (User: lrms) (Server: (local)) - [Combo Labels - Brother HL-2270DW series Printer #595]' window. The interface includes a menu bar (File, Previous Menu, Main Menu) and a 'Selection Criteria' section with several dropdown menus. Annotations with yellow arrows point to specific settings:

- To Print Labels:** Tag the collection records that are to be printed.
  - Pick the Collection with the Tagged Records. (Points to 'Main Collection' in the Collection dropdown)
  - Place a check mark within Tagged Records Only. (Points to the checked 'Tagged Records Only' checkbox)
  - Select the Order of the label output. (Points to 'Title' in the Order dropdown)
  - Bullet the Title as First Line, this is essential. (Points to the selected 'Title as First Line' radio button)
- Label start position:** This option allows the use of a partially used label sheet where some rows of labels have not been printed. (Points to the '1' in the 'Start label row position' input field)

Other visible options include:
 

- Print Holdings Location Code after Barcode (selected)
- Print Marc 852a Location Code after Barcode
- Do not print Location Code after Barcode
- Text as First Line (entered below)

## Collection Combo Labels:

These labels are specifically use to produce two Barcode labels and one Spine label and only can be done with label stock from "Demco".

- Item # SB142 -1618, 12 label sets to a page, 1 - 1"x 7/8" and 2 - 2 7/8" x 7/8"
- Item # SB142 -1711, Foil backed 12 label sets to a page, 1 - 1"x 7/8" and 2 - 2 7/8" x 7/8"
