Information - G4 Printable Materials List

G4 utilizes various printable materials for Spine labels, Barcode labels, Combination label sets and Catalog Cards. These materials are standard and can be purchased from most any library supplier; we have chosen a supplier that is well known in the library industry. We have also added some other alternatives materials; all of these items have been tested and are compatible with G4. The has the ability to use other sized label materials, these Items would require setup using its Feature known as "Define Label Stock" found in the G4 Labels & Cards Menu.

The following list of items and their catalog numbers come from;
